

REAL INGREDIENTS. REAL RESULTS.

More than just a skincare range, Prologic has been professionally formulated without harsh or unnecessary additives to ensure that every ingredient has a direct effect on the skin's cells.

Prologic ticks the boxes that so many can't. A NZ owned, operated and manufactured skin care range, that is also vegan friendly, natural and places sustainability and ethical processes at the top of its core values.

Based in Wellington New Zealand, Prologic has been formulated with the higher UV index in the southern hemisphere in mind. This has resulted in a skincare range that considers all factors contributing to skin conditions in the South Pacific.

Working on strengthening the skin barrier defence system and balancing epidermal lipids, Prologic focuses on building strong foundations first, then slowly targeting specific skin concerns.

By using ingredients that imitate the processes found in young healthy skin, Prologic delivers optimal results using natural skin identical ingredients to preserve the epidermis and the skin barrier defence system.

Preserving the epidermis means protecting and strengthening the skins most important cells resulting in strong, healthy and youthful skin.

SUSTAINABILITY

We aspire to have as minimal impact on the environment as possible. We are proud to have FSC (Forest Stewardship Council) accreditation for our boxes and labels, this means they come from a sustainable and fair trade source. Ink used in printing our packaging is plant based, containing no chemical toxins or poisons. All packaging and bottles are 100% recyclable and consists of aluminum, glass and recyclable plastic.

All of our formulations are created with both the skin and environment in mind, all ingredients

are eco-friendly and do not have a negative impact on the microbiome of the skin or the environment.

ETHICS

Prologic prides itself on ethical processes, a 100% vegan skin care product that stands behind absolutely no animal testing. We work with suppliers that also believe in being ethical companies. Doing the best by their brand, business, staff and customers.

STOCKIST INFORMATION

With both retail and professional treatment ranges available you can be assured that Prologic will support all your clients' skin needs both in the clinic, and at home. Prologic is a professional only advanced skin care treatment range, meaning it can only be sold by industry professionals. As a stockist, you will receive a full training programme, including a range of online resources.

THE WOMEN BEHIND THE BRAND

Rachel Robertson and Paula Cliffin have a combined industry experience of 51 years. This means not only do you get your hands on products that work, but you can also utilise their extensive business knowledge

RACHEL ROBERTSON is the founder of Prologic Skincare. Beginning her career as a hands on Skin Therapist, Rachel has travelled the world gaining experience and knowledge to help her build her brand.

With a focus on continual education and a desire to create her own product line, Rachel completed her post graduate training in cosmetic chemistry. This culminated into further research into corneobiology, the science behind the Prologic Skincare range.

PAULA CLIFFIN has been appointed the Exclusive Australian Distributor of Prologic Skincare. Paula trained and started her career 3 decades ago in New Zealand. She has owned and operated businesses in both NZ and Australia. She attributes her success as a specialist Facialist / Corneotherapist to constant post-graduate training – with a particular interest in caring for oncology and auto-immune challenged clients.

A very important part of how she has chosen to practice and live her life, has been her sustainability footprint. Her clinic has been part of a resource recovery organisation called Sustainable Salons ANZ for many years. Prologic will also be part of this incredible movement. Education has always been the cornerstone of how she practices, as well as a huge commitment to sustainability in everything she does. It was a natural progression for her to jump onboard with Prologic, considering Prologic's sustainability footprint.

NO MINIMUM ORDER

Prologic understands that every business is different and product demand can change over time. For this reason, a minimum opening order or monthly spend is not enforced. Instead, a tailored package will be designed for you to meet your specific business and clinical needs.

PROLOGIC

ADVANCED SKINCARE TECHNOLOGY

“After completing my cosmetic chemistry training I recognised the importance of carefully researching the ingredients and formulations of the skin care I was using in my Salon. I love Prologic because each ingredient has been chosen to have an active effect on the skin. Most of the clients we see in salon have impaired acid mantles and this range is all about protecting and repairing this delicate balance. We love this range, thank you!”

Stephanie Manning, stockist since Prologic launched in 2011
